SS070502 Lesson 2

Big Idea Card

Big Ideas of Lesson 2, Unit 5

- Advancements in technology, politics, and literature achieved under both the Roman Republic and the Roman Empire have had a significant impact on the course of history. Romans often borrowed and built upon the ideas and technologies of other civilizations.
- Roman contributions in architecture, engineering, public health, law, and art helped shape the modern era.

- In order to build and maintain an empire as vast and advanced as Rome, the

Romans developed and called upon a wide range of systems and expertise.

Seventh Grade: Early World History

Unit 5: Interactions, the Fall of Empires, and Other Stories (1000 BCE – 500 CE, Era 3)

Word Cards

Word cards from previous lessons needed for this lesson:

- militarization – Word Card #7 from Lesson 1
- unification – Word Card #8 from Lesson 1

SS070502 Lesson 2

9 innovation

the act of translating an idea or invention into something new

Example: The development of concrete was an important innovation in architecture and building.

(SS070502)

10 aqueduct

a pipe or channel designed to carry water from a faraway source to someplace else, usually using gravity to help move the water along

Example: The Romans used aqueducts to bring water from the mountains to the low-lying city of Rome. (SS070502)

11 viaduct

a bridge with several different parts, usually arches or spans, built to cross a valley, gorge, or river

Example: They built a viaduct to make it easier to get across the deep gorge. (SS070502)

12 civil engineering

the use of science, math, and other forms of specialized knowledge to design, build, and maintain buildings, other structures, machines, etc.

Example: Roman engineering made many contributions to the modern planning of roads and bridges.
(SS070502)

Page 3 of 9

Seventh Grade: Early World History
Unit 5: Interactions, the Fall of Empires, and Other Stories (1000 BCE – 500 CE, Era 3)

SS070502 Lesson 2

13 bust

a sculpture depicting a person's head and shoulders

Example: There are many busts of famous Roman emperors.

(SS070502)

14 mosaic

the art of creating images by piecing together small pieces of colored glass, stone, or other materials

Example: The Romans created many beautiful mosaics using small pieces of

colored glass.

(SS070502)

15 public health

the science of preventing disease and promoting health in the overall public through organized group action and policies.

Example: Providing clean drinking water was an important part of the Roman's contributions to public health.

(SS070502)

16 architecture

the art or practice of designing and building structures

Example: Roman architecture reflected a heroic style seen best in the Colosseum

and other buildings.

(SS070502)

17 adaptation

the process or state of changing to fit a new environment or different conditions

Example: The United States capitol building is an adaptation of Greco-

Roman architectural forms.

(SS070502)

18 invention

creating an object,

process or

technique that did

not exist before

Example: Inventions of the 20th Century

include the television, computer, and cell

Notice: All plans are tentative and subject to change at the teacher's discretion.

Student Handout #1 - Roman Contributions Analysis Sheet

SS070502 Lesson 2

In your group, review the materials in the packet for your particular area of Roman society. organizer below, list some of the key innovations or examples from this category. Then choose one example and answer the significance questions below for the example. You will have to think to answer these... not all the answers are in the text! As always, be prepared to explain your thinking.

On the

_____ -
Area of Roman Society

Important

Choose one example from this category and answer the questions below:

innovations or

examples

Did it affect many people? If so, how?

Did it affect lots of areas of life? Explain.

Did it cause a major change for people? If so, how?

Michigan Citizenship Collaborative Curriculum Page 5 of 9 Copyright © 2010-2014 by Oakland Schools December 17, 2013

Seventh Grade: Early World History SS070502 Unit 5: Interactions, the Fall of Empires, and Other Stories (1000 BCE – 500 CE, Era 3) Lesson 2

Student Handout #2 – Roman Contributions Poster Instructions

In your group, choose one specific Roman innovation from your category that you think was the most significant. Use the criteria for historical significance to help shape your thinking.

Your task is to develop a poster that describes the innovation and explains why you think it was the most significant. Your poster needs to have both visual and textual elements (graphics and words!).

To explain why you think this particular innovation was the most significant, be sure to address the following four questions:

- **How did it affect lots of people?**
- **How did it affect lots of areas of life?** (*For example, art, religion, politics, education, transportation, etc.*)
- **How did it cause a major, or dramatic, change for people?**

- **Does it still have an impact?**

The following checklist explains all the necessary elements you need to include in your poster and in your poster presentation. Use this checklist as an organizer for your presentation as well.

- ✓ Clear explanation of what the innovation was, as well as an explanation of how, when, and where it was developed.
- ✓ A drawing or graphic illustration next to the explanation that supports the description and helps readers visualize the innovation.
- ✓ Concise (short, but not too short!) explanation of how it affected lots of people.
- ✓ Concise (short, but not too short!) explanation of how it affected lots of areas of life.
- ✓ Concise (short, but not too short!) explanation of how it caused a major change for people.
- ✓ Concise (short, but not too short!) explanation of how it still has an impact today.
